IT 4403: Adv Web and Mobile App

Course Section: W01 (85564)

Fall Semester 2026 Syllabus

This syllabus is applicable for following Course Num/Sec:

- IT 4403/W01

Instructor Information

Geetika Vyas

Email: gvyas@kennesaw.edu

Office Location: 1217 F Atrium Building, Marietta Campus

Office Phone: (470) 578-3803

Office Hours: In Person: Tuesdays, 11:30 AM–3:30 PM, and Wednesdays, 4:45–5:45 PM, in Room 1217F, Atrium Building. Online: Thursdays, 12:30–4:30 PM, via Microsoft Teams (access information available in D2L).

Preferred Method of Communication: D2L email

Course Information

Total Credit Hours: 3

Laboratory / Experiential Field Hours: 0

Prerequisite: IT 3203

Concurrent Prerequisite: None

Corequisite: None

Course Meeting Information

Course Meeting Time: No scheduled meeting time

Course Meeting Location: Not applicable

Course Meeting Modality: 100% Online – Asynchronous; no required in-person or scheduled virtual meetings

Course Materials

No textbook required. All learning materials will be provided in D2L.

Course Description

This course covers advanced topics on web and mobile applications with a focus on modern web application architectures and mobile friendly user interfaces. Students will complete one major development project using the latest web technologies. In this particular semester we will have a focus on single-page web applications and web APIs, which has been the latest trends in modern web application development. Building upon your fundamental web site design and client-side development skills, this course enhances your web development skills at the client side, utilizing jQuery, JSON, and AJAX

- There are no textbooks required for this course.

Course Learning Outcomes

- Explain modern web application architectures and related concepts.
- Compare major mobile and web development approaches, platforms, and tools.
- Examine and use popular web APIs.
- Apply appropriate web and mobile user interface design principles and techniques.
- Create a cross-platform mobile web application using the latest web technologies and services.

Course Requirements and Assignments

Assignments Overview

The course includes a series of assignments designed to help you explore key

Internet of Things (IoT) concepts and applications. These assignment is designed to assess one or more course learning outcomes.

Individual Assignments

- Milestone 1: create a project homepage and use JavaScript/jQuery to read, process, and display book data from JSON files in clean, well-organized webpages.
- Milestone 2: build a small web application using the Google Books API.
- Milestone 3: convert the web application project into a single-page web application using jQuery and AJAX. Implement book search, pagination, book details, and bookshelf display dynamically on one page using the Google Books API.
- Milestone 4: improve the single-page application (SPA) user interface and interactions while retaining all Milestone 3 functionality. Enhance the UI using jQuery and Mustache.js templates, implement multiple view layouts, and apply advanced interaction patterns for displaying search results, book details, and bookshelf content.

Course Project

Students will apply and extend skills learned throughout the course by building a single-page web application using APIs, AJAX, and SPA design concepts.

Each course deliverable is designed to assess one or more course learning outcomes. Grading rubrics and submission guidelines will be provided in D2L to explain expectations. Weekly deliverables, are used as formative assessments to help students practice and reinforce concepts before completing the course project.

Final Grade Weighting:

Table 1. Course Grade Weight Distribution

Grade Item	Weight
Milestones	30%
Quizzes	30%

Grade Item	Weight
Project	35%
Discussion	05%
Total	100%

Teaching Methods

This course will use the following teaching methods:

- Hand-on Learning Experiences / Laboratory Experiments
- Collaborative Assignments and Projects
- Lecture

Evaluation and Grading Information

Grading Scale

The table below shows how final percentage scores are converted into letter grades.

Table 2: Course Grading Scale

Percentage Range	Letter Grade
90%–100%	A
80%–89%	B
70%–79%	C
60%–69%	D
0%–59%	F

Grades are rounded up only when the decimal value is 0.5 or higher.

For example:

- 89.6 rounds to an A
- 79.2 remains a C

Grading and Course Policies

Managing Your Deadlines

- To help you stay on track, each assignment includes a 7-day submission

window.

- Because our course builds week-over-week, I am generally unable to accept work once this window closes. If you encounter an unexpected challenge, please reach out to me for prior approval so we can discuss a plan.
- While third-party apps can be helpful for personal organization, please always refer to our D2L course site as the official source for all due dates and submission requirements to ensure you have the most accurate information.

Feedback Loop

- You can expect to receive your grades and detailed feedback within 10 days after each submission deadline.

Planning for Success

- If you find yourself needing an extension or a specific accommodation, please let me know as early as possible. For me to best support you and keep the course moving, these requests must be made before the deadline. This helps us work together to find a solution that keeps you on track.

Quiz Guidelines

- Because quizzes are designed to check your understanding of the weekly material, they have set windows. If an emergency arises that prevents you from completing one, please reach out with valid medical documentation so we can discuss the possibility of reopening it for you.

Extra Credit & Grade Recovery

- To support your progress, there may be (not guaranteed) opportunities to earn extra credit throughout the semester. These activities are designed to help you reinforce your skills and can be used to improve your scores in the Assignments or Discussions categories.
- Please note that, unless otherwise stated, extra credit cannot be applied to quiz grades, as those are specifically intended to check your understanding of the weekly module content.

Technical Issues

- Any request for a make-up due to technical issues must include the UITs support ticket number.
- Requests without a ticket number will not be approved.

Midterm Grades

A midterm grade will be assigned by the midterm grade due date listed on the academic calendar. This grade is used to help you assess your performance midway through the semester, at least one week before the final day to withdraw without academic penalty.

Important Notes About Midterm Grades

- You can view your midterm grade in Owl Express.
- The midterm grade is informational only and is meant to help you understand your progress in the course.
- Only the final grade is officially recorded on your academic transcript.

If you have questions about your midterm grade or need guidance on improving your performance, please reach out during office hours or via D2L.

Course Calendar

Please note that the course schedule is tentative and may be adjusted as needed. The dates listed represent the start of the submission window, not the due date. Students must follow the dates in their D2L course module/ calendar for the most accurate and up-to-date information.

Always refer to the [KSU Academic Calendar 2026](#) for important dates such as Drop/Add deadlines, the Last Day to Withdraw with a W grade, Commencement, and more.

Table 3: Course Schedule

Week Number and Start Date	Content Covered	Activities
Week 1: Aug 24	Orientation	Self-Introduction Discussion
Week 2: Aug 31	Single-Page Application (SPA) Overview	Lab 1
Week 3: Sept 7	Mobile Web Overview	No deliverables
Week 4: Sept 14	jQuery	Lab 2 Group Project Introduction
Week 5: Sept 21	JSON	Lab 3 Quiz #1 Milestone #1
Week 6: Sept 28	RESTful API	Milestone #2
Week 7: Oct 5	Term Project and Books API	Group Project Proposal Quiz #2
Week 8: Oct 12	AJAX Basics	Milestone #3
Week 9: Oct 19	AJAX REST	Quiz #3
Week 10: Oct 26	Data Layout	No activity
Week 11: Nov 2	Data Interaction	Group Project Report
Week 12: Nov 9	Responsive Web Design (RWD)	Milestone #4
Week 13: Nov 16	UI Frameworks	Quiz #4
Thanksgiving Break: Nov 23–29	No Class	No activity
Week 14: Nov 30	Project Work	Group Project Walkthrough

Course Policies

Submission Policy

All graded items must be submitted through D2L by the deadlines listed in the course calendar. Email submissions will not be accepted.

Assignments submitted after the due date will not be considered for grading. Students are responsible for carefully reviewing and keeping track of all due dates on D2L. Please do not rely on third-party tools or reminders to track deadlines.

Timely submission of all coursework is expected.

Attendance and Participation Policy

Please identify your specific enrollment format below to ensure you are meeting the weekly grading criteria.

Table 4: Grading Criteria for Weekly Attendance and Participation.

Student Format	Requirement	How it's Graded
Hybrid (50% Online)	Attend the weekly 1.5-hour in-person session.	Attendance (Full session stay required).
Fully Online	Weekly participation through online activity exclusive for fully online modality.	Weekly completion of online participation activity.

Although we do not meet in person, your active participation in our D2L classroom is important for succeeding in this course. You are expected to engage regularly with the course materials, your classmates, and me through D2L.

Reviewing the weekly module videos, participating in discussions, and completing course activities will help you stay on track with the content and build confidence in your coursework.

Learning Modules & Resources

Course content is organized into weekly learning modules, which will be released on D2L throughout the semester.

Course materials include:

- Lecture notes
- Supplementary readings

AI Use Prohibited:

You are expected to generate your own work in this class. When you submit any kind of work, you are asserting that you have created it completely on your own unless you indicate otherwise using quotation marks and proper citation for the source(s) you used to help you. Submitting content that has been generated by someone other than you, or that was created or assisted by an AI generative tool is cheating and constitutes a violation of the KSU Code of Academic Integrity.

You may use AI tools only for your own learning, practice, and troubleshooting. AI-generated content is not permitted in any submitted work. Be aware that generative AI tools often produce incorrect information, fabricated citations, flawed code, and potentially plagiarized or offensive images. You are fully responsible for any inaccurate, biased, offensive, or unethical material you submit regardless of whether it was created by you or an AI tool. If you use AI in any capacity, you must clearly credit its use in your submission. Failure to acknowledge AI assistance is considered cheating and is a violation of the KSU Code of Academic Integrity.

Modified Operations Policy:

Kennesaw State University is committed to remaining open and continuing full operations, including class schedules, whenever possible. The Office of the President, in consultation with the KSU Office of Emergency Management and other officials, will determine when an emergency impacts KSU's normal operations. When the University is closed due to an emergency, all classes will be canceled, and non-essential personnel will not be expected to work.

When the University shifts to modified operations, Cabinet members, in consultation with the Office of the President or designee and the Office of Emergency Management, will be responsible for determining appropriate operational continuity for their divisions. This may include remote work. During modified operations, each faculty member will be responsible for instructional continuity for their classes. To ensure instructional continuity, all Academic Colleges and Departments are expected to maintain and regularly update instructional continuity plans. All syllabi should also include an instructional

continuity plan statement specific to that course.

During a weather event or other emergency, those commuting to campus should exercise their best judgment when determining travel options. If the University remains open and an employee elects not to report to work, the employee will be required to use their accrued vacation time.

The University will announce campus closures and delayed schedules in several ways. The cell phone number on file with the university will automatically receive KSU Alerts, so make sure your information in OwlExpress is accurate at all times. An email will also be sent to your university account.

In addition, announcements will be made by a notice on the Kennesaw State University home page.

Course Continuity Plan:

- Please check D2L Brightspace for necessary instructions.
- If in-person classes are not possible, we may transition to virtual classes using MS Teams.
- Deadlines for assignments and assessments may be adjusted to accommodate the emergency situation.

We understand that emergencies create unique challenges. If you need additional support during an emergency, reach out via Brightspace or e-mail. The university also offers resources such as counseling and academic support, which can be accessed remotely.

University Sponsored Academic Resources

University Academic Resources:

- [Academic Tutoring Services](#)
- [Disability Resources](#)
- [Library](#)
- [Supplemental Instruction](#)
- [The Writing Center](#)
- [Virtual Smart Center](#)
- [Academic Advising](#)

Student Resources:

- [Student Support Links for Online Learning](#)
- [Student Success Resources](#)
- [Scholarships and Financial Aid](#)
- [Office of the Registrar](#)
- [Office of the Bursar](#)

Grade Appeals and Student Complaints:

KSU desires to resolve student grievances, complaints and concerns in an expeditious, fair and amicable manner. The [complaints and concerns webpage](#) was developed to assist current and prospective students in submitting complaints and appeals, and to direct them to the most effective venue for accurate information and resolution. The resources on the page will direct students to the specific venue to appropriately address the related student complaint.

Complaints for online students are resolved following the same general procedures for students who attend classes on campus. However, for any process that requires a student appear in person, the university may make other arrangements. For processes that cannot be completed via telephone, email, or written correspondence, the university may set up a two-way video-conference site in place of a meeting on the KSU campus.

Technology Resources

For issues with technical difficulties, please contact the Student Help Desk:

[Submit a Request for Help](#)

Email: service@kennesaw.edu

Call: 470-578-6999

[New Students Technology Services](#)- Steps that will help you meet the technological requirements of the University.

Any request for make-ups due to technical issues MUST be accompanied by the ticket number received from UITs when the problem was reported to them. The ticket number will document the time and date of the problem. You MUST e-mail your instructor within 24 hours of the technical difficulty if you wish to request a make-up.

Student Support and Wellness Resources

Student Wellness Resources

YOU MATTER at KSU, and your wellbeing is a priority to us. College is exciting, but it can also bring challenges that affect your health, wellbeing, and academic success. Whether you need academic accommodations through Student Disability Services, counseling, health education, addiction and recovery support, fitness and recreation opportunities, or access to basic needs resources, Wellbeing@KSU is here to help you do well and be well.

Faculty Profile (USG CV Requirement):

Directory Information

Name: Geetika Vyas

Title: Lecturer of Information Technology

Department: College of Computing and Software Engineering - Information Technology

Mail Drop: 9036

Degrees Earned

Ph.D., Computer Science, IIS (Deemed to be) University, Jaipur, Rajasthan, India, 2017

M.S., Computer Science, Banasthali Vidyapith, Banasthali, Rajasthan, India, 2005

Teaching Interests

My teaching covers topics such as IT policy and law, IT service delivery, system acquisition, Internet of Things (IoT), cloud computing, web development, and enterprise AI applications. I emphasize student engagement and student success through hands-on learning, case studies, applied projects, and interactive tools such as Kahoot.

Institutional Policies

Academic Integrity Statement:

Every KSU student is responsible for upholding the provisions of the [Student Code of Conduct](#), as published in the Undergraduate and Graduate Catalogs. Section 5c of the Student Code of Conduct addresses the university's policy on academic honesty, including provisions regarding plagiarism and cheating, unauthorized access to university materials, misrepresentation/falsification of university records or academic work, malicious removal, retention, or destruction of library materials, malicious/intentional misuse of computer facilities and/or services, and misuse of student identification cards. Incidents of alleged academic misconduct will be handled through the established procedures of the Department of Student Conduct and Academic Integrity (SCAI), which includes either an "informal" resolution by a faculty member, resulting in a grade adjustment, or a formal hearing procedure, which may subject a student to the Code of Conduct's minimum one semester suspension requirement.

KSU Disruption of Campus Life policy:

All students are responsible for knowing the information, policies and procedures

outlined in the Kennesaw State University Codes of Conduct. [Student Conduct and Academic Integrity \(SCAI\)](#) includes: the general Student Code of Conduct, the Residential Code of Conduct, and the Code of Academic Integrity.

KSU Web Accessibility:

Federal law Section 508 Subsection 1194.22 of the Rehabilitation Act and the Board of Regents (BOR) of the University System of Georgia (USG) Web Accessibility Guidelines require that all web content meet the federal government's accessibility guidelines. As such, KSU complies with USG guidelines.

University accessibility assistance is provided by several offices as noted below. Staff in these offices work to accommodate requests for access or assistance with access as soon as possible in order to either accommodate the request or identify an effective alternative for the requester.

Request for Office Contact Number Contact Email

- Student Support Services Student Disability Services 470-578-2666 sds@kennesaw.edu
- Student Technology Assistance [Student Technology Assistance](#)
- University Information Technology Services
470-578-6999 service@kennesaw.edu
- Third Party Technology Assistance University Information Technology Services 470-578-6999 service@kennesaw.edu

KSU Reasonable Accommodations:

Students with qualifying disabilities under the Americans with Disabilities Act (ADA) and/or Section 504 of the Rehabilitation Act who require "reasonable accommodation(s)" to complete the course may request those from Office of Student Disability Services. Students requiring such accommodations are required to work with the University's Office of Student Disability Services rather than engaging in this discussion with individual faculty members or academic departments. If, after reviewing the course syllabus, a student anticipates or should have anticipated a need for accommodation, he or she must submit documentation requesting an accommodation and permitting time for a

determination prior to submitting assignments or taking course quizzes or exams. Students may not request retroactive accommodation for needs that were or should have been foreseeable. Students should contact the office as soon as possible in the term for which they are seeking accommodations. Student Disability Services is located in Kennesaw Hall, Room 1205 on the Kennesaw campus and Building A in Suite 160G on the Marietta campus. Please visit the [Student Disability Services \(SDS\) website](#) for more information, or call the office at 470-578-2666 (Kennesaw campus) or 470-578-7361 (Marietta campus).

KSU Enrollment Management/Course Attendance:

Students are solely responsible for managing their enrollment status in a class; nonattendance does not constitute a withdrawal.

Copyright Law:

It is the responsibility of KSU faculty and students to respect the rights of copyright holders and complying with copyright law. The University System of Georgia recognizes that the exclusive rights of copyright holders are balanced by limitations on those rights under federal copyright law, including the right to make a fair use of copyrighted materials and the right to perform or display works in the course of face-to-face teaching activities.

The University System of Georgia facilitates compliance with copyright law and, where appropriate, the exercise in good faith of full fair use rights by faculty and staff in teaching, research, and service activities. The University System of Georgia ensure compliance with copyright law in the following ways.

1. The USG informs and educates students, faculty, and staff about copyright law, including the limited exclusive rights of copyright holders as set forth in 17 U.S.C. § 106, the application of the four fair use factors in 17 U.S.C. § 107, and other copyright exceptions.
2. The USG develops and makes available tools and resources for faculty and staff to assist in determining copyright status and ownership and determining whether use of a work in a specific situation would be a fair use and, therefore, not an infringement under copyright law;
3. The USG facilitates use of materials currently licensed by the University System of Georgia and provides information on licensing of third-party

- materials by the University System; and
4. The USG identifies individuals at the University System and member institutions who can counsel faculty and staff regarding application of copyright law.

Protecting Students' Privacy (FERPA):

Students have certain rights to privacy. These rights are mandated by federal policy. [The Student Handbook](#) contains information regarding Rights Pertaining to Student Records, and FERPA specific details are available on the [KSU FERPA website](#).

A key requirement of the formal evaluation process is the protection of individual privacy rights concerning educational grading. The University's online learning system and email system is designed to prevent unauthorized individuals from gaining access to sensitive information or information protected by federal or state law. Consequently, faculty and students are strongly encouraged to only communicate regarding course matters through the University's designated technology learning system.

Information should not be made public in any way in which a student's grades, social security number, or other personal information may be identified. Grade information may be shared with members of the KSU community who also have a legitimate educational interest in student success (e.g. academic advisors or members of the Behavioral Response Team). Faculty may be asked to provide early alert information if there is a concern that a student is at risk, academically or otherwise.

KSU Sexual Misconduct:

In accordance with federal and state law including, Title IX of the Education Amendments of 1972 ("Title IX") and Title VII of the Civil Rights Act of 1964 (Title VII), the University System of Georgia (USG), including Kennesaw State University, prohibits discrimination on the basis of sex in any of its education programs or activities or in employment. The USG is committed to ensuring the highest ethical conduct of the members of its community by promoting a safe learning and working environment. To that end, Kennesaw State University

follows USG Board of Regents Policy Manual, Section 6.7. [Visit Title IX](#).

Withdrawal from Classes:

A student who officially withdraws from a course by the end of the last day to withdraw without academic penalty will receive a grade of “W” and receive no credit.

A student will receive a refund only when the student withdraws from ALL courses for the applicable semester and only by the schedule outlined in the University refund policy found in the Tuition, Expenses, & Financial Aid section of the undergraduate and graduate university catalogs.

Students should be aware that a reduction in their hours might result in the loss of full-time student status and thus affect their financial aid, scholarships, athletic and ticket eligibility, University housing accommodations, use of University resources and access to University facilities, visa for international students, and Veterans Educational Benefits. Students should contact the appropriate office and their academic advisor with questions about the impact of their withdrawal from a course before initiating a withdrawal. Veterans and dependents of veterans who receive educational benefits must notify the Veterans Education Benefits Area in the Office of the Registrar of any course load reductions.

Hardship Withdrawals

If a student experiences significant personal hardship (e.g., medical or family emergency, prolonged illness), the Dean of Students can approve a hardship withdrawal from all courses in the term for which the student is currently registered. In the case of an approved hardship withdrawal from all courses, the Registrar will assign grades of “W” for those classes. The deadline for final approval of a hardship withdrawal by the Dean of Students is the last day of class for which the hardship withdrawal is sought. If the hardship withdrawal process is not complete by the last day of class for which the hardship withdrawal is sought, a student must appeal for a retroactive hardship withdrawal from the Academic Standing Committee.

Appeals for retroactive hardship withdrawals must be directed to the Academic Standing Committee. Retroactive hardship withdrawals are rarely granted if it has been more than one year since the last day of class for which the withdrawal is sought. Extraordinary justification must be shown. In the case of approved retroactive hardship withdrawals, the Registrar will assign a grade of “W.”

University Initiated Withdrawals

If a student is suspended by the Office of Student Conduct following a violation of the University’s Code of Conduct not related to academic dishonesty, the Office of Student Conduct may facilitate a University-initiated withdrawal from courses for which a student is registered for the term. The Registrar will assign grades of “W” for those classes.

Military Withdrawals

A student will receive a “WM” symbol for all courses and a full refund of tuition and mandatory fees and a pro rata refund of other fees for military and other service, as defined by [BOR Policy Manual, Section 7.3.5.3](#). To request a military withdrawal, the student must submit a copy of official orders to the Office of the Registrar.

Academic Feedback:

Institutional Chief Academic Officers will encourage faculty to clarify for students, at the beginning of each course, the basis on which grades will be determined and to provide timely academic feedback as the course progresses ([BOR Academic and Student Handbook Policy 2.18](#))

Netiquette: Communication Courtesy:

All members of the class are expected to follow rules of common courtesy in all email messages, threaded discussions and chats. See [Email Best Practices](#) for additional guidance.

Course Delivery:

KSU may shift the method of course delivery at any time during the semester in compliance with University System of Georgia health and safety guidelines. In this case, alternate teaching modalities that may be adopted include hyflex, hybrid, synchronous online, or asynchronous online instruction. Please refer to the Instructional Continuity statement included in each course syllabus for specific plans.

Accessibility Statements and VPAT Links

Accessibility and VPAT Information for Course Technologies

This course may use third-party learning tools. Accessibility information for each tool is provided below so students can review available features and make informed decisions. Students who have accessibility concerns are encouraged to review these resources early and contact the instructor if support is needed.

Kahoot! Accessibility Information

This course may use Kahoot! for interactive learning activities.

Students can review information about Kahoot!'s accessibility features, including support for screen readers, adjustable text size, and inclusive design, on the [Kahoot! Accessibility and Inclusion webpage](#).

Accessibility considerations:

- Kahoot! includes features designed to support diverse learners.
- Individual experiences may vary depending on device, browser, and assistive technology.
- Students who require accommodations should notify the instructor as early as possible.

Padlet Accessibility Information

This course may use Padlet for collaborative and reflective activities.

Students can review information about Padlet's accessibility features and compliance practices on the [Padlet Accessibility and Compliance webpage](#).

Accessibility considerations:

- Padlet provides guidance on accessibility support and known limitations.
- Accessibility may depend on how content is created within Padlet.
- Students using assistive technologies should report any barriers they encounter.
